PRESTIGE NEW MODELS AND INNOVATION 2009

In 2009, Jeanneau will continue to pursue dynamic growth in our Prestige line, launching our 10th Prestige model. The Prestige line was launched in 2000, and since that time, Jeanneau has sold 2,000 Prestige motor yachts worldwide.

THE PRESTIGE 50 : LUXURY AND PERFORMANCE

The new Jeanneau Prestige 50 Fly is born of our experience developing Prestige motor yachts. At once classic in its overall style and very contemporary in its details, the new Prestige 50 perfectly illustrates current trends in this sector.

An extremely comfortable interior layout (3 cabins, 3 private head and shower compartments), featuring a surprising interior volume (with distinct saloon and dining areas) and a well-appointed flybridge, is the mark of an excellent power cruiser.

The new Prestige 50 will soon be known throughout the world of 50-foot motor yachts.

Price: Starting from 540,000€, before taxes

To be launched in Cannes and Southampton in 2008

THE PRESTIGE 50S²: A NEW SPORT TOP AND A NEW GARAGE

The Prestige 50S² benefits from an eye-catching new design, featuring contemporary lines along the sport top and a large, integrated tender garage. This skilfully designed new styling results in even greater interior volume.

With the tremendous success of the Prestige 50S, launched in 2007, Jeanneau demonstrates its capacity to evolve and to develop a very distinctive style.

Luxurious details and the exceptional quality of materials onboard lend the Prestige 50S² its exclusive signature style.

Available in a two-cabin or a three-cabin layout, this new Prestige 50S² will be presented at autumn 2008 boat shows.

Price: Starting from 496,900€

To be launched in Cannes and Southampton in 2008

THE PRESTIGE 42S: MORE INNOVATIVE THAN EVER

After a successful first year, the Prestige 42S now features two new design concepts patented by Jeanneau :

- **The double cockpit** : two distinct spaces, one of which transforms into a sundeck housing a tender locker. This new design concept enhances comfort and increases entertaining capacity at anchor or while cruising.
- **The electrically opening glass panel** : in seconds, an open sport top transforms into a fully enclosed space (with large opening roof) sheltered by glass panels. Remarkable on a boat of under 50 feet in length, this equipment offers greater comfort and flexibility, whether cruising or at port.

THE PRESTIGE 38S : 1ST PRESENTATION IN FRANCE AND IN ITALY

The Prestige 38 S, which was unveiled in special premiers in London, England and in Dusselörf, Germany in January 2008, **will soon be presented for the first time** in France and in Italy at the autumn 2008 boat shows.

The Prestige 38 S is the first sport top to feature the “double cockpit” design concept, which doubles deck space available for entertaining by offering two distinct cockpits, one of which transforms into a sundeck and houses and **integrated tender garage**.

On the interior, extremely spacious for its category, the Prestige 38 S offers two **large double cabins** – one is a **full-beam centreline cabin** and the other features a **private walk-in closet** – and a **generously sized saloon** that converts into a double berth.

The Prestige 38 S is powered by CUMMINS QSD 4L2 twin engines, 320 HP each.

Price : Starting from 224,000€, before taxes
