

## SUN ODYSSEY DECK SALOON «PERFORMANCE»

SUN ODYSSEY 39 DS | 42 DS | 45 DS | 50 DS

### WHO SAYS CRUISING SHOULD BE SLOW?

Building on the success of the Sun Odyssey «Performance range, Jeanneau has decided to develop the same concept for its Deck Saloon range allowing even greater speed, tuning and enjoyment to the world's most complete range of Deck Saloon yachts.

Built on the powerful hulls of the successful Sun Odyssey line, the taller mast and additional equipment in the Performance version gives its owner the advantage :

- Tri-radial cut sails made from a sandwich of Mylar® and taffeta fabrics provide form stability and protection against UV and abrasion.
- Precise tuning and control of the rigging and sails are the keys to Performance sailing. In order to achieve this precision, Dyneema® running rigging, Dyform® standing rigging, adjustable genoa cars and adjustable backstay are all standard on the Performance version.
- Below the waterline, a profiled Performance keel and a feathering prop.

True Performance cruising is within your reach. Step aboard and take off!
